

e-Afghan Ag Files

What is e-Afghan Ag?

The e-Afghan Ag website is a growing, publically accessible, on-line information resource that improves Agricultural development in Afghanistan.

What can I find in the e-Afghan Ag Website?

The e-Afghan website provides information about:

- **Provinces:** Priority needs and opportunities.
- **Technical information:** Fruits, nuts and vegetables; grain and other field crops; livestock; forestry and watershed management; irrigation.
- **Non-technical information:** Cultural and logistical information.

Also, there is access to Agricultural Diagnostic tools, and there will be information about programs currently in the field.

About the files

The files in the website are uploaded in the smallest size possible as a .pdf or .m4v, ensuring access and readability. The notation used for the name of the file show: type of document; topic; specific crop/species; and language, author and issue date (when pertinent).

Type of document	Notation
<ul style="list-style-type: none">• Information sheet: one-page introductory document, used for provincial overviews and technical information (.pdf)	IS_
